

## **TEMIS S.A. to become EXPERT SYSTEM France S.A. with an extended line of cognitive intelligence solutions**

[Expert System](#) (EXSY.MI), a leader in multilingual cognitive computing technology, today announced that TEMIS S.A. will be become Expert System France as of February 1, 2016.

This announcement follows Expert System's acquisition of TEMIS on September 23, 2015. Expert System's French operations will now be conducted by Expert System France S.A., led by Gilles Pouzenc, co-founder and former CFO of TEMIS, who has been recently appointed CEO, France to lead the company's expansion in the French Cognitive Computing and Text Analytics market. The French team and organization will remain unchanged, and Expert System France will continue to be headquartered in Paris with an office in the Grenoble area.

By combining forces and integrating their solutions into TEMIS products, Expert System brings the most advanced semantic platform for understanding, analyzing and enriching unstructured information to the market. In addition to the highest level of expertise in the fields of linguistics, engineering and programming for cognitive computing, the group also has considerable experience working with hundreds of public and private sector organizations, as well as in a variety of industries including publishing, energy, banking and insurance, healthcare and telecommunications.

"With this extensive portfolio, our sales team will be able to offer customers world-class solutions for their cognitive intelligence needs," said **Gilles Pouzenc, CEO, Expert System France**.

**Stefano Spaggiari, CEO, Expert System**, commented: "The renaming process is a further step in strengthening our market identity. Today, Expert System is the largest European group in the complex and fragmented information access market, and among the few leading companies able to effectively support organizations in taking advantage of their data. Thanks to the synergy of skills within TEMIS, we have enriched our innovative technological offerings, which has enabled us to continue to grow and to support our customers' success. Growth in foreign market revenues—revenues from the end of the first half of 2015 quadrupled compared to the same period in 2014—is also helping to increase the company's visibility worldwide."

### **About Expert System**

Expert System is a leading provider of cognitive computing and text analytics software based on the proprietary, patented, multilingual semantic technology of Cogito. Using Expert System's products, enterprise companies and government agencies can go beyond traditional keyword approaches for the rapid sense-making of their structured and unstructured data. Expert System technology has been deployed to deliver solutions for a vast range of business requirements such as semantic search, open source intelligence, multilingual text analytics, natural language processing and the development and management of taxonomies and ontologies.

In September 2015, Expert System acquired TEMIS, becoming the leading global provider of semantic technology for cognitive computing.

Expert System operates worldwide and its European operations serve some of the largest sectors including Government (Europol, French Ministries of Defense, Interior and Finance), Publishing & Media (Agence France-Presse, Les Echos, Editions Lefebvre-Sarrut, Elsevier, OECD, SIPA Ouest-France, Wolters Kluwer, Il Sole 24 Ore), Life Sciences (Eli Lilly, Merck KgaA, Novartis, Sanofi), Oil & Gas (EDF, Eni, Shell, Total), Financial Services (BNP-Paribas, Crédit Agricole Group, Intesa Sanpaolo, ING Direct) and Industry (BASF, Philip Morris International, Thalès, Volkswagen).
